22 May 1964

MEMORANDUM FOR THE RECORD

1. Mr. Kent called me at 1400 and furnished the following information which he described as "FYI." The signals on the SNIE have been completely changed. Because of a meeting of the Executive Committee of the Security Council at 1000 or 1100 Sunday, McGeorge Bundy expects the DCI to come back from California for that meeting. It is expected that Mr. McCone will return to California after the meeting for a speaking engagement on Monday.

2. By the "close of business" tomorrow (Saturday), BNE expects to have a draft SNIE ready. The BNE has invited a representative from DIA and one from State to sit in with them in the drafting stages of this SNIE. Kent described the product of this effort as an uncoordinated, rough, rough draft which will be sent to the Security Council for their consideration at the Sunday meeting.

3. Kent expects--but says not to place any bets on it--that the reps will coordinate the draft on Monday and that USIB will consider it on Tuesday. The latter part of this is subject to change.

25X1A

Deputy Executive Secretary, USIB
